The purpose of this corrigendum is to publish the corrections in the article entitled “Evaluation of sperm DNA fragmentation using multiple methods: a comparison of their predictive power for male infertility”.

On the last line of page 15, “Evenson et al. [5] established the SCSA protocol for SCSA,” was incorrectly presented. It should read “Our lab modified protocol used for SCSA,”

On page 16 line 6, in the sentence “the results are presented as the

DFI (%) calculated utilizing the SCSA program (SCSA-Soft; SCSA Diagnostics Inc., Brookings, SD, USA),” SCSA program (SCSA-Soft; SCSA Diagnostics Inc., Brookings, SD, USA) should read FAC scan program (BD Biosciences, Franklin Lakes, NJ, USA).
